

The logo for Fruit Food, featuring a stylized red fruit with a white stem and two green leaves, positioned between the words "FRUIT" and "FOOD".

FRUIT FOOD

Partenaire de vos innovations fruitées

A large, stylized graphic of a fruit, possibly a peach or apricot, with a grey stem and two grey leaves at the top. The bottom part of the fruit is a bright pink color, with a white circular center. The entire graphic is semi-transparent and serves as a background for the text.

FRUITOFOOD

The natural fruit for your beauty

About us

- **SME with 25 employees, located in the depths of Natural Perche Reserve,**
 - **Fruitofood is specialized in a vaccum dehydration at cool temperature.**
 - **This particular process allows us to propose you natural dehydrated fruits :**
 - **Fruits stabilized 100% naturals.**

From fresh or IQF fruits, we dehydrate the fruit by a slow and cool evaporation of its water.

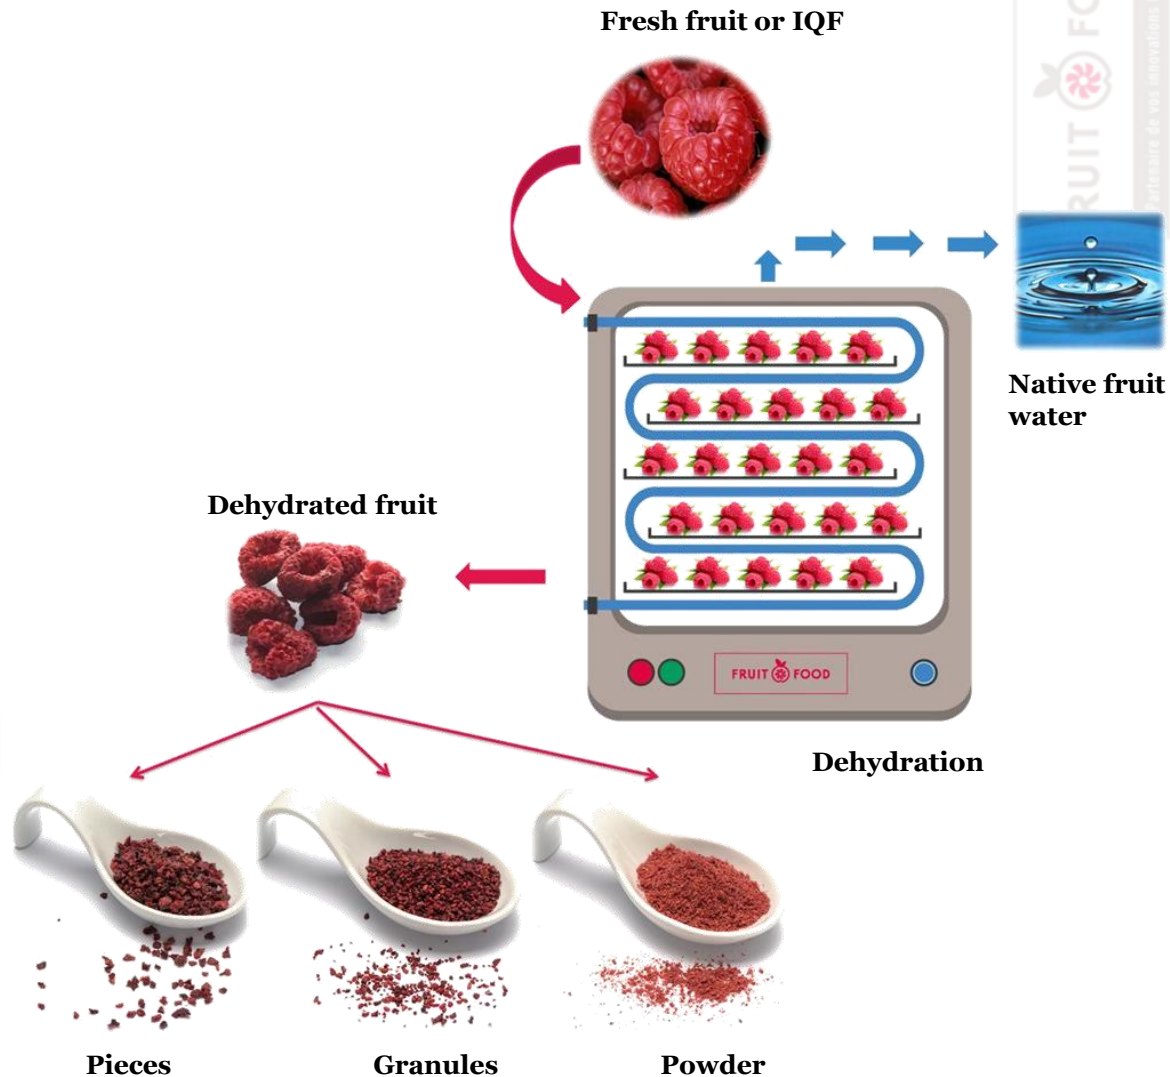

Our know-how

From fresh fruits or IQF, we dehydrate the fruit by a slow and cool evaporation of its water.

So, we obtain the dehydrated fruit, but also its water, called « Onativ'® ».

Our particular and original recovery process guarantees to the user a native fruit water, obtained at cool temperature.

As water must be of a high cosmetic quality, Onativ'® is filtrated to get rid of its micro-organisms, bacteria, yeast and moulds, to enable you to process from a remarkable water.

Our Onativ'®

onativ'

- **Water is a fundamental ingredient in cosmetics formulation.**
- **Onativ'® is 100% fruits and give a fruit moisturizing power to your water-based lotion, cleanser lotion or any other body care products.**
- **Because of this, it can replace totally or partly the water in your formulas.**
- **The 1st generation of Onativ'® is stabilized with preservatives. Its shelf life is quite interesting.**
- **In the future the aim is to process more and more natural products without any contaminating agent. Our R&D has finalized a 2nd generation of raw material guaranteed without preservative and 100% natural and organic.**
- **The COSMOS application don't change theses characteristics. Thanks to Onativ'®, you will increase the organic rate of your formulas.**

Our Onativ'®

Nomenclature :

- Onativ'® with preservatives (99.65%)
Onativ'® P
- Onativ'® without preservative (100%)
Onativ'® NP
